

I: Mam issue wrt to number as well as security staff for their handling. As in case of Gargi college large no. Of people entered the campus after overpowering the security staff.

M4: But if they have entered then how it is possible to monitor huge crowd in cultural events.

I: Mam we also faced with same issues during college fest and for that we 20 members (security management team) provided point of contact to the students.

M4: Like control room.

I: Mam control room was thre having participation from security guards and college administration. But we acted as point of contact at ground level.

M4: You were 20 how had you managed.

I: Mam we had members at fixed positions as well as in mobility to monitor activities and to convey the same to control room.

M4: But in such event it is difficult to monitor activities?

I : Mam for that we were briefed about some sensitive areas like Performance area, rehearsal area, events like DJ night and parking

M4- Like dark spots

I: Yes mam as such areas have sense of anonymity.

M4: But if crowd is doing misconduct with a girl then what to do?

I- Mam for that we were instructed overpower the person at the spot.

M4 (interrupted)-means overpower physically

I- yes mam and to inform the security staff and in case of serious issue inform the college administration to handle the situation amd if needed call the police.
